

#InGlutenWeTrust

Take a deep dive into whole grains. We will work with regional varieties to develop a mother dough that can be used for pizza, focaccia, hearth-style loaves, and crackers.

Students will learn about natural, wild-fermented sourdough breads and how to incorporate active whole grains at varying percentages to get maximum flavor expression. They will be introduced to hydration methods that support thirsty grains, golden crust, and tender crumb.

Other topics we will explore are milling for yourself and how to match, build, and layer flavor by mixing different grains.

**Rose Lawrence** is the owner of Red Bread, an award-winning bakery in Los Angeles, CA, known for sourdough loaves, preservation, and whole grain pastries. She is committed to understanding the science, art, and magic of real food treated with care. She is a passionate chef, baker, master food preserver, and is actively involved with food justice issues. Rose teaches classes across the nation, in hopes of inspiring more bakers to use whole grains for more flavor and nutrition, and to support farmers in putting diversity back in the field.

**The Wheat Marketing Center** is dedicated to improving the well-being of US wheat farmers and world-wide consumers. The Center provides technical support services to the wheat industry and is committed to excellence in education and research. Visit [www.wmcinc.org](http://www.wmcinc.org).

## Versatile Whole Grain Doughs
